

Magnificent Monument Celebrates Mr. A. M. Naik's Vision at Hazira

A new monument at Hazira recognizes the contribution, far-sighted vision, and the achievements of L&T's Chairman & Managing Director, Mr. A.M. Naik.

Fittingly, it was Mr. Naik himself who unveiled the magnificent monument on January 15, 2009.

Mr. Naik set Hazira on its momentous journey of achievement in the early eighties. What was then before him was a swamp on the banks of the river Tapi. But in his mind's eye, he saw an industrial complex that could manufacture some of the largest, heaviest and most sophisticated equipment needed by industry.

He backed up his vision with the vigour necessary to transform an idea into an accomplishment.

And Hazira has justified his vision and faith – it has a track record that is studded with equipment and systems that have shattered existing records for scale, and have set new benchmarks for speed of execution.
