

Another smart city development order has been secured from Patna Smart City Limited for the retrofitting and re-development of storm water drains, development of smart road network as per urban street design principles, development of footpaths, utility corridor, streetscaping, vendor & parking zone creation, installation of street furniture with smart street lighting, smart bus stops and allied works in Patna, Bihar.

Both these orders reaffirm L&T's inherent capabilities to develop and install a wide range of smart solutions to convert cities into smart cities.

Background:

Larsen & Toubro is an Indian multinational engaged in technology, engineering, construction, manufacturing and financial services with over USD 18 billion in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
