

₹ 6700

The Railways Strategic Business Unit of L&T Construction's Transportation Infrastructure Business has won a major order worth ₹ 6700 Crore from the Dedicated Freight Corridor Corporation of India Ltd. (DFCCIL). This prestigious order has been secured by a consortium of L&T Construction and Sellen. The EPC order involves construction of 626 km of a double track corridor from Rewari in Haryana to Iqbalgarh in Gujarat, via Rajasthan, spanning three states. This is the country's largest project awarded so far in rail sector and the first of its kind in India.

DFCCIL is a special purpose vehicle of the Indian Railways, mandated to build dedicated freight corridors. This project will be funded by Japan International Cooperation Agency (JICA) and is part of the 1,490 km western corridor proposed between Dadri (near Delhi) and Jawaharlal Nehru Port Trust (near Mumbai).

The track will be designed for 25 MT axle load to run double stack containers dedicated for freight. Around 1.5 lacs MT of rails will be imported from Japan for this project. The scope of work includes construction of 1400 track km of railway line, 50 major & 1250 minor bridges, 20 stations along with supply of all associated equipment.

The project has been planned to be executed using completely mechanized means. be exec.e exetrae b69(exe)-4(
