Ahmedabad, built by Larsen & Toubro , today played host to WKH +RQ •EOH 3U
Minister of India, Shri Narendra Modi , DQG WKH +RQ •EOH 3UHV LGHQW F
of America, Mr Donald Trump, in the presence of a galaxy of personalities from
across the spectrum in front of a packed stadium.

Constructed by the Buildings & Factories business vertical that resides within L&T
Construction, the construction arm of L&T, the stadium took four years in the
making, which included demolishing the previous stadium at the same site.

commented Mr SN Subrahmanyam, CEO & Managing Director, L&T, on the occasion.

· As builders of nations, we are in the business of building the largest and the tallest, the biggest, the smartest and most complex, and the Motera Stadium will count as one of our most challenging successes in the recent times. We are also delighted that we have been able to deliver a quality project to our client, the Gujarat Cricket Association, who were always a tower of support to us during the construction of this massive infrastructure. Mr Subrahmanyam added.

· Engineering wise, this has been one of our most challenging projects that involved the erection of 9,000+ precast elements, including some of the heaviest weighing up to 70 tonnes. Mr Subrahmanyam, Director & Senior Executive Vice President (Buildings, Minerals & Metals), L&T.

India proud and teamwork that is reflected in our excellent safety record of having clocked more than 20 million safe man-hours. One unique aspect of the Motera Stadium, among many, is that every seat in the stadium has an uninterrupted view of the field of play that is sure to make cricket fans feel like they are in the middle of the action.

Designed by the globally renowned architect, Populous, the Motera Stadium, built to last a century, boasts of several unique aspects such as clusters of LED lights carefully positioned on the roof to avoid the multiple shadows of players on the pitch and an efficient drainage system. It is also a water and energy efficient green construction.
