Leadership Development Academy Earns Green Campus Platinum Rating

Leadership Development Academy (LDA) has been awarded the Green Campus Platinum Rating by the Green Building Council of India (GBCI).

The building's design and construction incorporated several sustainable features, including the use of natural topography and landscape, sensitivity towards the differently-abled, use of natural light and an efficient ventilation system, the heat-island effect on the roof, wastewater treatment, employee collaboration areas and recreational facilities were some of the important factors. Other key features of the building footprint include site solar panel installation, energy efficiency improvement projects and tree plantation drives.

Mr S N Subrahmanyan, CEO & MD, has appreciated the Corporate HR team for this recognition.

LDA offers world-class infrastructure facilities to develop future leaders and global corporate entrepreneurs. Since inception in 1997, it has been a pioneer in the field of corporate training and development.

LDA has been honored with several significant honours garnered earlier – the CII-Energy Efficiency Unit and IGBC Green Campus Gold rating awards in 2019 and the State Level Award for Excellence in Energy Conservation and Management conferred by Maharashtra Energy Development Agency in 2020.
