The prestigious annual award recognizes infrastructure projects that leverage out-of-the-box digital tech.

/ 7 . V S U R M H E F W A Daprabhu Kempegowda Layout Township in Bengaluru made it to the finals of the award. The award was judged by an independent jury panel and was conducted by the Nasdaq-listed Bentley Systems, a global infrastructure engineering software company. The project will deliver potable water, collect sewerage, and lay a recycled water network through a piped system in the NPKL Township area in Bengaluru.

The project team has improved engineering productivity by as much as 25% with the help of digital technology and has saved 50% engineering manhours with standardized digital models. For sewer and water networks alone, using technology solutions saved the project 80% of engineering manhours and helped the team complete the engineering works in a record six months.
